KAZEEM OYEYINKA JIMOH

Gbagada Est, Baptist church, Gbagada 2 | +2348122142257 | Holaryinka5050@gmail.com, | LinkedIn | GitHub | Website | Behance

PROFILE:

Product Designer and Frontend Developer with a Computer Engineering background, focused on building intuitive, scalable, and visually refined digital products. Experienced in end-to-end product design, from user research and UX strategy to high-fidelity UI and frontend implementation. Comfortable collaborating closely with engineers, PMs, and stakeholders to translate complex requirements into elegant user-centered solutions.

Strong interest in fintech, SaaS, and data-driven platforms, with a deep appreciation for design systems, interaction details, and continuous iteration.

CORE SKILLS:

Product Design

- User Research & Personas
- UX Strategy & Information Architecture
- Wireframing & User Flows
- High-Fidelity UI Design
- Design Systems & Component Libraries
- Prototyping & Usability Testing
- UX Writing & Microcopy
- Interaction & Visual Design

Tools

- Figma (Advanced)
- Framer
- Adobe XD
- InVision
- Webflow

Frontend (Design-to-Code Strength)

- HTML, CSS, JavaScript
- TypeScript
- React, Next.js
- Tailwind CSS

EDUCATION:

Bachelor of Engineering (B.Eng) in Computer Engineering
University of Ilorin, Nigeria
Graduation Date: 11th October, 2023

Work Experience:

React Developer (Freelance)
Remote
Sep 2025 – Dec 2025

- Built and maintained scalable frontend applications using React, TypeScript, Tanstack, and TailwindCSS.
- Implemented component-based architectures to improve code reuse and maintainability.
- Translated UI/UX designs into functional, performant interfaces.
- Worked independently to deliver solutions aligned with client requirements.

Frontend Web Developer & Designer — Codecafe
Jul 2025 – Sep 2025 | Lagos, Nigeria

- Designed and implemented responsive, accessible interfaces using Next.js, TypeScript, and Tailwind CSS.
- Collaborated with designers to translate UX concepts into scalable frontend architecture.
- Built reusable UI components and design-aligned layouts, reducing future development time.
- Integrated APIs and real-time data updates, improving user engagement and interaction clarity.

Product Design Facilitator — 3MTT

- **Aug 2024 – Nov 2024 | Ibadan, Nigeria**
- Led hands-on UI/UX training sessions covering user research, wireframing, prototyping, and high-fidelity design.
- Mentored fellows through complete product design cycles, resulting in high delivery of production-ready prototypes.
- Designed structured feedback and iteration frameworks, improving design quality and participant satisfaction.
- Leveraged my frontend development expertise to guide design decisions, ensuring feasibility and smooth design-to-code translation.

Frontend Web Developer (NYSC) — Aorthar Agency
Dec 2023 – Oct 2024 | Lagos, Nigeria

- Designed and developed mobile-first interfaces using React and Tailwind CSS.
- Worked closely with backend engineers to ensure seamless data flow and user experience.
- Refactored legacy UI components, improving load times by 15% and usability across devices.
- Applied UX best practices to improve navigation clarity and reduce user friction.

SELECTED PROJECTS

- Speed Radar Monitoring System
  - Designed a real-time dashboard UI for monitoring traffic violations.
  - Created user flows and interfaces optimized for clarity and fast decision-making.
  - Collaborated on frontend implementation using React for live data visualization.
- Catalogue Management Platform
  - Designed and developed a clean, scalable UI for managing digital collections.
  - Implemented CRUD workflows with strong UX clarity using Next.js and Tailwind CSS.
  - Improved content handling efficiency by 35%.

DESIGN PHILOSOPHY

- User-first, data-informed decisions
- Strong attention to detail and visual consistency
- Comfortable with feedback and rapid iteration
- Passionate about building products that feel intentional, usable, and elegant
